Thank you for submitting a poster abstract for the 6th annual Women's Health Research Day at Virginia Commonwealth University-- to be held April 7, 2010

Information on poster set-up and the hours of the poster session are included below.

Poster Session Guidelines

- You must set up your poster between 10:00 am and 11:30 am in rooms 104-105 of the Medical Sciences Building (first floor). Posters must be up by 11:30 am.
- Judging for the Elizabeth Fries Young Investigator & Building Interdisciplinary Research Awards will be held between 12:30 and 1:00. It is not necessary that you be present during judging.
- Each presentation will have one 4'X 6' poster board. Make sure that your poster will fit on this size board.
- Velcro tabs (provided) are the only allowable means to affix poster to board.
- The program schedule is from 1:30 to 4:30. We expect you to attend the entire program, including the symposium presentation.
- The Poster Award Presentation will immediately follow the keynote presentation.
- The formal poster viewing session is 3:30 to 4:30 pm. Presenters should stand near their poster during the poster session and be available to answer questions.
- A reception will be held during the poster viewing session.
- Authors are responsible for transporting and assembling poster presentations and removing the presentation after the session.
- Plan to remove posters at 5:00 pm. Posters MUST be down by 5:15 pm.

Format Suggestions

1. Posters should be readable from 5' away.
2. Present only enough data to support your conclusions.
3. Simplicity is important. Color is helpful.
4. Titles should be snappy and descriptive and in very large font.
5. Attendees come from multiple disciplines, so simple background information and well-written conclusions are key.

All abstracts will also be posted on the Institute for Women’s Health website.

We have registered you (the submitter) for the full afternoon events and it is our expectation that you will stay and participate. Please encourage your co-authors to register and attend as well. This year’s event will focus on the new era in NIH funding in multidisciplinary and collaborative women’s health research. The day includes current and up-to-date information from NIH, examples of interdisciplinary women’s health research currently being conducted at VCU, and information about resources available. Awards Ceremony will follow the symposium and panel discussion.

Check the website for agenda and more information:
